

real estate website development

California real estate is a golden market. Would you like to generate more leads and take advantage of the power of the web? We develop California Real Estate Websites that are feature rich and help capture your visitor leads on your website.

We provide you with a professional, beautiful website and fully functioning to meet the demands of your business. Fully integrated into the MLS area of your choice, our IDX MLS data is updated daily to make sure your clients have access to the latest data. Here are some of the features we provide in all our real estate website development packages:

- Keep your clients up-to-date with the newest listings on the market.
- Give each of your clients a personal property organizer.
- Customizable featured listings, open homes, easy-to-use website administrator.
- Agent Roster System to run his/her own email update client list.
- Links seamlessly into the property organizer
- Agent Bios with their current listings displayed.
- Solds Property Gallery - Allows you to highlight your companies successful track record.

For more information on any of our products and services, please contact us. [Click here](#) to see a demo of features for our real estate websites.

General System Features:

Complies with all MLS/IDX rules and regulations

- Data and Photos updated daily from all included MLS systems
- Automatically posts all MLS cities into the search parameters
- Can blend multiple MLS databases into the search and email functions
- Company/agent can modify own listings, change photo, enhance description, and add photo and virtual tours
- Company/agent control email notifier clients
- Featured property function automatically posts listings from the MLS to the web site with thumbnail photos or not
- Displays single family/condo, lots and land, mobile homes and 2-4 unit buildings separately, what ever types of properties supplied by the MLS system
- All contact information goes back to company/agent
- Fast, accurate, simple

We offer custom and interactive websites for all real estate professionals: real estate agents, mortgage companies, real estate appraisers, and loan agents.
