

about creative media website design

We specialize in professional website design for all businesses and are located in the San Francisco East Bay Area! We work with you one on one from start to finish to help you establish your identity on the web. Every market impression your business makes is critical. We can help you transform your image that gives you the recognition you deserve.

Our websites are the perfect mix of style, beauty, and business. The designs are customized, innovative and appealing. With years of experience, we know what works. We know the ins and outs of a successful website. We can help you make an impression on the web.

President of Creative Media Web, Carole Galassi started the company from a love for visual design. Formally trained at The Academy of Art in San Francisco as a Graphic Design major, Carole has extended these creative services into the internet. With an extensive Information Technology background, she provides a special blend of creativity and technical talents for each client.

She has worked with major organizations such as the Federal Reserve Bank of San Francisco, Citibank, SBCglobal (formally Pacific Bell), and the University of California Office of the President. Carole is currently a contributing Tech Writer for The Orinda News local paper.

We believe that being well-rounded designers are critical to our clients because we are able to understand the creative aspects as well as the technological means to achieve successful results.
east bay website design team

We are a small bay area design and web hosting firm with large expertise and experience in developing websites. We have been creating exceptional designs since 1994 with a trail of satisfied customers along the way! We care about the people we service. Experience the difference.

The Creative Media Web team consists of friendly, talented and experienced designers and webmasters focused on creating and maintaining high-impact websites. Our objective is to build sites that are effective, and we do that by getting to know your company, your industry and your goals.
