

## church website design

Looking to upgrade your church website? We can help give you the dynamic and interactive website design for your organization. We offer special non-profit rate discounts to promote your web presence on the world wide web.

We understand the items necessary to make your church website a place where your current members and visitors come back to. We believe church website design is special because it needs to project the heart and soul of your congregation.

Developing a church website that enables your visitors to receive information about your church or ministry is important. We also provide added functionality such as:

- Daily random Bible verse display
- Interactive online forms with feedback, validation and anti-spam filters
- Online giving/tithing or donations
- Ministry information pages
- Church Calendar
- Upcoming Events
- Newsletter email program
- Photo Galleries
- Video and audio streams for pertinent messages
- Backend administration allows you to update your content easily and quickly
- 1 hour backend training
- Low monthly hosting fee starting at just \$9.98 per month!
- 24/7 support for any questions or solutions you need

Best of all, your design will be tailored to the look and feel of your organization. It will be an extension of your church. We offer 3 popular packages for you to choose from just starting at \$1,650.00.
